

INTER-OFFICE MEMORANDUM

40449B

DATE February 26, 1946

TO: Commanding Officer, U.S. Engineer Office
P.O. Box 1532, Santa Fe, New Mexico

FROM: Alfred M. Large, Captain, M.C.

SUBJECT: The Radiation Monitoring Group for the Navy Wet Test

(1) Information has been received that the group of men being trained for the radiation safety group, under the direction of Colonel Warren, will arrive at this post in two groups on Monday 4 March 1946 and Tuesday 5 March 1946.

(2) Enclosed is a roster of the officer members of this group, with serial numbers and branch of service designated. All but one of these officers are members of the respective medical corps of their individual branches. Major William Stone is the chemical warfare representative.

(3) The following arrangements have been made:

- a. Lt. Di Sabatino will take care of the transportation of these men to the Post and during their stay here.
- b. Captain Reid is arranging housing facilities in Barracks "O" and "P".
- c. The Intelligence Office will have Post passes prepared for these individuals when they arrive.

(4) These men will probably be here from 4 March until 24 March, but it is expected that they will spend the week beginning 17 March at Trinity.
